The recent blizzards in calves and
sheep makes hundreds of our peo-
ple feel that after all life may be
worth the living and our mountain
sins.

Thursday afternoon there was a
very enjoyable outing in the grove
near Lightner's shop. The time
was passed in swinging, games,
rumps, and social attentions.

If we had not been so busy during
last week collecting descriptions we
would have taken great delight in
catching him one. As it is we
must surrender that pleasure to
some one not so much engaged.

Charles Beverage, who was com-
mitted to jail for contempt at the
last term of the court for refusing
to testify before the grand jury was

Mr. John Addison, one of the
ablest and respected citizens of the
Beagle vicinity, is peacefully pass-
ing his old age in a home he open-
ed up in primitive form during
the last thirty years, assisted by
his amiable wife and a family of
children. The prospect is very
wide and picturesque and may be
justly regarded as one of the most
interesting among the hundreds of
mountain views that abound in our
land of the sky. Fruit trees, vine,
a garden, meadows, sugar groves,
and productive fields make up a
beautiful and attractive home.

On Rocky Point Run, not far
from the school house, there is a
curious formation. A large stone
stratification across the stream and
at first sight it might be taken for a
log, and hence is named the stone
Log. Near Washington Beagle's
residence is a cascade of
surprising beauty falling and dash-
ing over the precipitous and rugged
rocks. When the sunbeams
play upon it the effect is enchant-
ing as a shower of falling gems
over the roadside just beyond in
the direction of McCollins
house is a curious round table of
stone decorated with shrubs, grapes
and flowers.

June is the month of birds

week but I am making arrange-
ments for ten cents inside over
and above what I have on hand.

One of the best and surest way
to raise a wheat crop is to go in the
woods, cut all the timber and brush
down in June, July and August.
In September burn all the trash off
the ground, sow your wheat, shovel
it and you are sure of a good
crop. This has been tried in our
neighborhood.

The Telephone.

At last Marlinton is to have a
telephone. The connection is to
be made with Mingo by the Beav-
er and Marlinton Telephone Com-
pany. Its President, Dr. John Bos-
worth, and secretary, Dr. C. A. Bar-
low, were here several days last
week.

Marlinton offered a very hand-
some inducement for the company
to put in a line by raising a dona-
tion of \$25, conditioned on the line
being in working order in sixty
days. This was accepted by the
telephone company who will build
to this point in that time. The
line will then be extended to Ches-
ter and then to the top of Cheat
Mountain by way of Haversville,
Frost, Dunmore, Green Bank and
Travelers Rest.

Thursday morning they started to
survey the route, setting a stake
wherever a pole was to be placed.
This work was done by Drs. Bos-
worth and Barlow who traveled in
a heavy carrying stake in direc-
tion of the line to his home.

We noticed William Dean, of
Labella, in our neighborhood, sell-
ing seed wheat for a New York
firm.

Mr. and Mrs. A. S. Overholt have
been visiting R. E. Overholt, of
Frankford.

Owen Kellison went boat riding
Sunday.

A. P. Landes was in this section
recently.

Misses Etta Beverage and Lillie
Kellison attended the Singing As-
sociation and report a good time.
Alvin Rodgers says he likes
chickens pretty well and he likes to
go to Mr. Helmer's.

L. C. McMillon and son Eliza
are in this part this week.

George Jackson has been on the
sickly for a few days.

Cecil Humphreys was down at
River Side Sunday evening.

Joseph Simmons and daughter
Lizzie were in town last week.

John Addison has shaved off his
whiskers and is ready to go war.

George Sheets and wife have
been visiting James Ratliff.

Mike Myers has returned from
Marion.

GENERAL FRANZ SEIGEL.

Among the well remembered Federal generals yet living our readers will recall the German General F. Siegel. He was repulsed by General Breckinridge at New Market. His personality was so inspiring that his troops had for their battle cry, "We fight for Siegel!" and under his inspiration the German soldiery would stand and die in their tracks as long as he would have them. It was some of his troops that passed through Lewisburg after the repulse at Lynchburg, and sampled the swill tubs at the kitchen doors and smacked their lips. "Dot is good! We fight for Siegel!"

General Siegel now lives in New York and edits a publication named "The New York Monthly."

He won great distinction in the German Revolution of 1849, and was called. He sympathized with the Union cause as most in harmony with the principles he fought for in Prussia. He was recently interviewed and he expressed himself as much interested in the present war. Not only as a loyal friend of the administration and a veteran of two wars, but he also perceives, as he thinks, its full significance as a part of the irrepressible conflict between government by irresponsible rulers who crush and oppress all the laborers and the taxpayers, and government by the people themselves.

This hero of two wars is now 73 years of age. He was only twenty-one when he began to take part in just such a conflict previous to 1848, and he was a major general in the army of his people before he was twenty-four years of age, and was commander in chief of the German insurgents with an army of twenty thousand men. While that revolution was unsuccessful, his government was over attached to those who had the direction of it. Overwhelming odds caused the failure.

If he interprets the present war correctly, then there will be no letting up until the people of earth become the government, and then the legislation will be by the people and for the people, the laborers and the taxpayers, among all nations, kindred, and tongues.

S. C. R.

His Opinion.

There is an amusing story at his own expense that General Fitzhugh Lee is fond of telling:

"We had surrendered at Appomattox," he says, "and I was riding slowly across the desolate country towards my home. My heart was heavy, my thoughts were sad, and rounding a curve in the road, I saw an old man plowing close to the fence. As I approached him he eagerly inquired of the news at the front."

"It is bad, very bad," I replied. "General Lee has surrendered."

"What is that you're saying?" almost screamed the old fellow.

"General Lee has surrendered and all is over."

"For fully a minute he regarded me, and then said with unutterable contempt, 'That's all you know about it. That little, no-count Fitz Lee might have surrendered, but Uncle Robert N. siree, never! Gee up, Boss!'"

The readers of this paper will be pleased to learn that there is at least one disinterested person who has been able to cure in all its stages, and that is **Cascarets**. Hall's Cathartic Cure is the only powerful cure now known to the medical fraternity. Cathartic being a constitutional disease requires a constitutional treatment. Hall's Cathartic Cure is taken internally, acting directly on the blood and mucous surfaces of the system, thereby restoring the foundation of the disease, and giving the patient strength by building up the constitution and expelling nature in doing its work. The proposition here is simple, plain in its nature, and that they offer our Hundred Dollar Reward that is a failure to cure. Send for list of testimonials. Address: F. J. CHENEY & CO., Toledo, O. It is not generally known that ice and frost remain among the mounds and rocks of our highest mountains the whole year through. A surveyor told us that he had seen plenty of ice on Chocoma the 17th of July, and on the top of Yew Mountain, at the head of Williams River, ice has often been seen in August.

The Philippines.

Cuba was the island we went to war to set free; but the accounts of the Philippine Islands by Spain suggest strongly that some power nearer geographically to these islands than the United States might long since have wrested them from the Spanish grasp in the interest of humanity. Here is what seems to be an authentic statement of the tax burdens laid upon the islands:

"All males over twenty-one years of age must pay a poll tax that equals eighteen dollars of our money, and the women pay four to ten dollars. A man must pay a license to sell coconuts from his own trees or indigo of his own raising. Every article of furniture that costs two dollars is taxed. The curtain never goes up at the theater unless ten dollars is paid to the government, and for every act of slaughtering his own animal, clipping his hair or shaving or falling his own trees, the Philippine farmer must pay a fee to the government. There is exacted government tribute for getting married and for becoming a parent, and for every day of turn of his life the tax collector holds out his hand to him, and it is not a demand that can be refused."

No wonder Spain wishes to keep a possession that yields such a return; no wonder also that the last sixty years have developed seven rebellions in the Philippines.

The Democratic convention met at Hinton Tuesday and Wednesday of this week.

W. S. Edwards was nominated for Congress by the Republican convention at Charleston, by acclamation.

Friday morning about a thousand Americans attacked about two thousand Spanish in the thickets five miles from Santiago. The victory was gained at great cost, thirteen killed and fifty wounded. Captain Capron, of the Rough Riders, and Hamilton Fish are among the slain. The Americans held the position at the threshold of Santiago and are preparing for a final assault. This is the most serious and hotly contested land engagement that has yet taken place and indicates fierce and bloody work are the place is taken.

The war tax goes into effect July 1. Internal revenue stamps must be affixed to bank checks, telegraph messages, deeds, mortgages, conveyances, notes, and promissory tickets. Express companies will probably require stamps to be affixed to parcels to meet the tax imposed on them, and telephone messages costing over 15 cents will be taxed. A two cent tax is required on every \$100 worth of stock sold. Tax has a duty imposed of 10 cents a pound. It will be very troublesome besides expensive for the taxpayer to keep and affix the various stamps.

YEAGER VS. BUZZARD.

The above is the style of the case which has been pending in the Circuit Court of this county for some time. It is a case between a school teacher and a school board. The teacher, B. M. Yeager, is suing the board for \$3000 in damages. The board, on the other hand, is suing Yeager for \$3000 in damages. The case is a result of a dispute over the payment of salaries to the teachers. The board claims that Yeager was not entitled to the full salary because he was not a member of the board. Yeager claims that he was a member of the board and was entitled to the full salary. The case is a typical example of the disputes that often arise between school boards and teachers.

The eastern ball clubs are off on western trips and are meeting with moderate luck. New York is seventh on list and Brooklyn ninth. Dollars to doughnuts the Brooklyn beat the New Yorks.

I imagine you know there is a war going on—a sort of peaceful affair. Troops have been landed at Santiago de Cuba and adjacent points. There will be some hot fighting soon. As the cable is connected the latest news will be received throughout the country. Our hero Hobson and his gallant crew are still prisoners. Blanco & Co. of Spain will not exchange them. Admiral Sampson has warned Cervera that if he harem betrays them, he (Cervera) will be held personally responsible.

A little 3-year old girl was crushed under the wheels of a trolley-car in Brooklyn on June 22. In her little chubby hand she clutched a penny. The baby attempted to cross the street to buy a stick of candy. The car was a block away from her and there was plenty of time to cross. This little girl, but her father, who the car came fast making up lost time, and the careless motorman "did not see" the little child. Of course the fender (cow-catcher) was down, but the mother was too high from the street to push a small body to one side. When the car was raised and the baby taken out there was still life left, but like the burning of a candle, it soon went out. The soul of this little one went to heaven. The mother is very low from the terrible shock, and it is thought may kill her.

These trolley cars are terribly dangerous affairs. Brooklyn is full of them. One time Brooklyn was called "The City of Churches." Now Brooklyn goes by the name of "Trolley Dodgers." You can form an idea of the number of trolley cars running in Brooklyn every day, when 3200 of them cross the Bridge. Hundreds of them go to other points. On Sundays extra cars are seen to accommodate the heavy traffic to Manhattan Beach, Coney Island, and other points. Brooklyn is a very watering place of the country.

This time of year our citizens shut up their city homes and go to the country. Why? I could tell. Only the fashion you know. I send my family away too. But it is foolish to do so. The air is cool and refreshing. The sight of the ocean. Thousands of out-of-town people flock to New York to spend the summer. Hotel registers are full of people from the South. Why do the people come here? Its the fashion, you know. My good friends, if one does not keep in the fashion these days he might as well go to the nearest duck pond and jump in and say "Here goes nobody."

In olden times when my grandmother was alive a fellow could go to a city church, seedily dressed, and be shown to the front pew. Now if a poor devil should come to one of these high toned churches, (on 5th Avenue, for instance, with his clothes tattered and torn, and his shoes not the best, the millionaire pew-holder, would be allowed to sit down and listen to the Word of God? NO! He would be told to go to such a street, such a corner, and there he would find the mission church and be welcomed. That's fashion, and the regular custom these days. I have a paw for myself and family and if I come across a poor fellow (a bum they call one who follows) that wants to go to church why in he peeps in my pew. If there is a kick from deacons in church, why out I pop. I would not be missed much I know, but my collection money and pew rent would be. Last Sunday was the first time I attended divine service for quite a while. Instead of being received with smiles and "how do you do's" the ushers stood like a lot of stuffed mummies or trained courtesans and not a word escaped them. What a cold, clumsy feeling comes over one when they come across such stiff people. (I

is these well-dressed, moneyed church people that drive the hardy mortals from church.) Well the minister preached a fine sermon—a financial sermon. He exhorted: Oh, how he talked for the dollars. His whole talk was: "Will you give?" (I don't know, I don't mind giving one or a while, but this thing of having it pumped into one every Sunday is really painful.) And if one gives him all as the minister wants, who will pay your butcher and grocer? Enough said.
